PROFESSIONAL SUMMARY

An academically distinguished and highly analytical Finance student (GPA 3.52/4.0) at UEH University. Passed ****CFA Level 1**** on the first attempt and possesses a robust foundation in financial analysis, econometric modeling, and quantitative research. Co-authored two significant research papers analyzing trade policy uncertainty and U.S. Federal Reserve monetary spillovers using advanced econometric models. Combines strong quantitative research capabilities with client relationship and project coordination experience. Eager to bring dedication and technical skills to a Finance placement.

EDUCATION

Bachelor of Business Administration in Finance 2023 - Dec 2026 (Expected)
University of Economics Ho Chi Minh City (UEH)
Fully English-taught high-quality curriculum. Focus on Asset Pricing, Corporate Finance, and Research. **Cumulative GPA: 3.52 / 4.0**

ACADEMIC RESEARCH

Impact of the US-China Trade War on Asia Pacific's Stock Market Performance **ICOB 2025 / COBRP 2025**
Methodology: ARMAX-GARCH-M (TPU) & DCC-GARCH models
Analyzed Trade Policy Uncertainty (TPU) shocks, abnormal returns, and time-varying volatility spillovers across 12 APAC stock markets and 10 Vietnam VN-Index sectors in 2025. Awarded *****"Passed" (Đạt)**** at UEH's COBRP 2025 and eligible for the iCOB 2025 conference. Linked financial resilience to SDG 8.

Stock Market Reactions to U.S. Fed Rate Cuts: A Comparative Event Study **CELG 2025 PRESENTATION**
Methodology: Event Study & Diebold-Yilmaz VAR spillover models
Measured short-term equity/sectoral reactions to Fed announcements and volatility connectedness between the U.S. and Vietnam during the 2019-2020 and 2024-2025 cycles. Selected for presentation at the CELG 2025 research competition.

PROFESSIONAL EXPERIENCE
